Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

DETAILED ACTION

1. This Office Action is responsive to communication filed on 9/25/2009.

Response to Amendment

2. The proposed amendments to claims will not be entered because they would require further search and/or consideration. For example, claim 1 now recite "wherein the high-definition television video data decompressed by the first decoder and the high-definition television video data decompressed by the second decoder for one frame, are transferred, in each time period for one frame, in parallel to a first PCI card and a second PCI card, respectively" and claim 8 now recites "wherein the compressed first high-definition television video data and the compressed second high-definition television video data for one frame, are transferred, in each time period for one frame, in parallel from the computer to the a first PCI card and a second PCI card, respectively" and claim 15 now recites "wherein the editing step and the decompressing of the compressed first high- definition television video data occur on the first PCI card, and the decompressing of the second high-definition television video data occurs on the second PCI card, the first PCI card being directly connected to the second PCI card".

The previous underlined arrangements were not previously defined, thus making the amended claims more specific and necessitating further search/or consideration. Independent claims 1, 8 and 15 thus would require further search and/or consideration.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ASHER KHAN whose telephone number is (571)270-5203. The examiner can normally be reached on 9:00 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Marsha Banks- Harold can be reached on (571)272-7905. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
